## PRACTICAL JOKER IS SHOT BY HIS VICTIM

### Mr. Richard Bell, Gives New Version of Fable Of The Wolf.

Richard Bell, the well-known dairyman on the Mayfield road, varied slightly the old fourth reader story of the boy who cried wolf too often, but his version points a moral and adorns a tale just as well, and quite more entertainingly than the original. Like the boy, he played a practical joke with the wolf scare, but instead of the wolf getting him, the hunter did, and he is bolstered up in bed while doctors are picking No. 3 squirrel shot out of his skin.

The joke was a great success, abounding in surprises both ways. The subject of the joke was originally intended to be Spencer Young, a negro employed on Bell's farm, but somehow the subject and predicate of the joke got turned around in the darkness this morning. That's the reason the doctors are so busy at Bell's house.

Spencer Young has to walk about a mile to Bell's dairy every morning at 4 o'clock, and he is terribly worried about the wolf, because he doesn't own a gun. He ascertained this fact last night during a conversation in which he related to Young every horrible tale of wolfish atrocity he could think of. He didn't count on Young staying away from work any morning by reason of his fear, because he knew the negro also had a dread of that other giant wolf that stalks about the door of poor folk's cabins.

However, he frightened Young into doing something else he hadn't calculated on, and while Bell prepared a wolf for Young, Spencer Young prepared for the wolf and they met this morning.

Mr. Bell, after informing the hands at the dairy, set forth before dawn down the road, leading from Young's house, to the dairy. Then he hid in the shadows, and as the negro came cautiously along the highway, peering every which way, Mr. Bell uttered a most terrifying growl and rushed out on all fours.

The result was more than he had anticipated. With a half frozen cry on his lips, the negro lifted a borrowed shotgun to his shoulder and let fly with both barrels.

Down on his face went Mr. Bell, giving a most accurate imitation of the dismayed scream of a wounded wolf.

Backward through the frosty air turned the frightened negro, impelled by the rebound of the overcharged shotgun.

The negro was the first to his feet and he ran straight for Bell's dairy.

That was fortunate, for the other hands, when they heard that Young had shot at the wolf, returned with him to the spot to gather up the remains of their beloved employer.

All they found was a disturbed spot in the road flecked with tiny drops of blood. The wolf had made tracks backward for the kitchen door, and the family even then was calling a doctor by telephone.

It will be a sad day for the real wolf if he ever meets any of the parties to this drama in the Mayfield road.

WILL SPEAK AT THE KENTUCKY ON MONDAY NIGHT.

TOTAL RECEIPTS OF POSTOFFICE - FOR SEPTEMBER \$1,696.13.

Friends Are Seeking to Make Notable Demonstration to Offset Beckham's Welcome.

Largest Month's Business for Local Office—Report Is Just Completed.

Senator James H. McCreary will speak in Paducah Monday night, October 15, instead of Tuesday, October 16, as at first arranged. The friends of the senator have arranged to secure the Kentucky theater, and it was on this account that the date was changed. A demonstration will be made by his friends, who desire to give him as good send-off as Governor Beckham was accorded on the occasion of his visit. With good weather they anticipate considerable of a crowd.

Trusty Kills Guard. Memphis, Tenn., Oct. 10.—H. Stewart, a trusty, killed the guard, L. R. Houston, on R. E. Alcorn's county convict farm today at Lake Village, Ark., and nine prisoners escaped. A sheriff and posse are in pursuit.

The postoffice receipts for September show a marked increase over September of 1905. The receipts follow: September, 1906 ..... \$4,696.13 September, 1905 ..... \$4,448.91 Increase ..... \$ 247.22

Mrs. E. L. Huddleston will leave today for a visit in Hot Springs, Ark.

## INTEREST CENTERS IN CONVENTION

Republicans Occupy Boards in Paducah This Week.

Probable List of Candidates for the City Ticket to be Chosen Tomorrow.

#### FEW NEW FACES AMONG THEM.

Political interest in Paducah centers about the action of the Republican convention at the city hall tomorrow afternoon at 2 o'clock, when candidates for city judge, boards of aldermen and councilmen and school trustees will be selected. There are four vacancies in the aldermanic board, caused by the expirations of the terms of the members, and it is expected that the incumbents will be re-elected unless they are re-nominated. They are President O. B. Starks and Aldermen E. E. Bell, John Farley and W. T. Miller. They are elected from the city at large.

There will be three new names on the councilmanic ticket, caused by the declination of President George O. McBroom, of the First ward, and L. F. Kolb, of the Third ward, to run again, and the resignation of Councilman Race Dipple, whose place was temporarily filled by an appointee of Mayor Yelver. The other members, whose terms expire and who are expected to run again, are Councilmen, G. M. Ochelschlaeger, of the Second ward; H. W. Katterjohn, of the Fourth ward; Samuel Hill, of the Fifth ward, and R. S. Barnett, of the Sixth ward.

Several available men for the vacancies have been mentioned, among whom are H. S. Wells, in the Third ward to succeed Councilman L. F. Kolb; John W. Bebout, in the First ward, to succeed President George O. McBroom and F. S. Johnston, as running mate for Councilman Katterjohn to succeed Councilman Race Dipple.

It is believed that all the school trustees whose terms expire, except L. P. Pettey, of the Fifth ward, will accept re-nomination. In the Fifth there are two vacancies, as Trustee Byrd was not qualified for the place when he ran before, but by courtesy of the school board was appointed to fill the vacancy until the next regular election. In that ward John Murray and H. C. Marlow, are prominently mentioned as available for candidates.

Other members, who probably will be re-nominated, are President Williamson of the Second ward; H. Gallum, of the First ward; Dr. W. H. Pitcher, of the Third ward; P. Beckenbach, of the Fourth ward, and Dr. J. S. Troutman, of the Sixth ward.

Hon. E. W. Bagby is probably most prominently mentioned for city judge. He has been approached by different delegations of Democrats, requesting him to make the race, and he apparently will carry great strength in the contest. He has considered the matter and decided to allow his name to be used, although it was against his desire in the beginning.

President George O. McBroom, of the board of councilmen, has been urged by friends to stand for the nomination, and others are mentioned as available.

#### FAILS TO TAKE BRIBES.

Indiana Sheriff Returns from Canada Without O. A. Baker.

Indianapolis, Ind., Oct. 10.—Sheriff Souther, who has been dickered with Oscar A. Baker, indicted agent of the American Tobacco company, charged with attempting to bribe legislators to vote against the anti-cigarette law, returned from Hamilton, Ont., today, after failing to lure his man from Canada. It is believed Baker has gone to Ireland.

#### BULL KILLS YOUNG BRIDAL PAIR

Gores Youth and Wife of 17 Who Eloped, Just After Ceremony.

Martinsburg, W. Va., Oct. 10.—Just as they left the home of the clergyman in Richmond Falls, who had married them, Frederick Gordon, aged 19, and his 17-year-old bride, who eloped today, were attacked by a bull and gored to death. A red dress which the young wife wore is believed to have angered the bull and been the cause of the tragedy.

## JOHN S. HOPKINS SAVED BY SHOREWARD BREEZE

### Pilot House of Steamer Was Consumed By Flames This Morning.

### Crew and Firemen, Aided By Wind, Work Valiantly and Prevent Spread of Fire.

### FIRE ORIGINATED FROM THE STOVE

Wind saved the steamer John S. Hopkins from total destruction by fire this morning at 7 o'clock. The fire started in the forward end of the Texas cabin or pilot house, presumably from the stove, the only fire on the boat. Some think that sparks from the smoldering fire in the McKinnin Veneer and Lumber company's yard set the steamer afire.

The damage will be \$2,000 fully covered by insurance. The personal effects of the captain and crew were burned or ruined by water. Much was thrown overboard in fighting the fire.

The theory of a spark from the shore is offset by the direction the wind was blowing, which was on shore. The wind, blowing away from the boat, prevented the flames from spreading rapidly, and the splendid work of fire company No. 2, saved the boat.

Startled by the furious ringing of the boat's bell, the crew of the Hopkins returning from breakfast on shore, hurried to an open view of the river on Myers street and saw the steamer on fire. Dick Brown, a colored helper on the boat, was the only person there and discovered the fire.

Hose was laid from Myers street to the river's bank, many hundreds of yards distant and difficult to cover. The firemen under the direction of Acting Chief Jake Elliott, carried the hose right up onto the burning steamer, which at that time seemed

doomed. After the stream began to play on the fire it was soon under control.

Only the shell of the Texas cabin remains, and the pilot house with the steering wheel and gear are gone. Water soaking through the floor of the Texas injured the passenger cabin and storerooms.

The Hopkins is valued at \$25,000, and was insured for \$10,000 with the Green & Green Underwriters agency of Evansville. This company was notified by telegraph of the fire this morning and an adjuster is expected tomorrow. The burned parts will be rebuilt immediately. The Hopkins had expected to resume the Evansville trade next week.

Capt. Harry Gilbert is in command and was at breakfast down town when he learned of the fire. In the crew were Harry Stanley and Ed Latham, engineers; Clyde Shaw, carpenter; a sailor, mate and watchman. All their clothes except what they wore were lost.

The Hopkins has been tied to the bank of the Tennessee river just below the McKinnin mill for several weeks, and went through the fire at that mill without leaving the shore. The crew have been taking their meals on shore at Fourth and Myers street.

Fire is still active in the sawdust heaps at the McKinnin mill and fire company No. 2 remained after saving the boat, to renew the effort to put it out.

## VICTIM OF HIGHWAYMEN IS DEAD AT PRINCETON

The highwaymen who assaulted J. B. Ford, the old Confederate soldier on First street near the New Richmond hotel Sunday night, are guilty of murder, according to the following dispatch received from Princeton, Ky., this morning:

"J. B. Ford who left Paducah yesterday, reputed to have been a for-

mer sheriff of Caldwell county, arrived in this city at an early hour yesterday, and on account of his premeditation for strong drink was not received in many saloons of this city, but he was offered shelter from the wintry blast, and at about 10 o'clock he expired. Ford had been addicted to drinking. He will be buried here.

## STREET WORK

FOUND TO BE COMPLETED IN A SATISFACTORY MANNER.

Board of Public Works Inspects Bit of the Paving on Kentucky and Jefferson.

Broadway and Kentucky avenue from Fourth street to Ninth street were inspected yesterday afternoon by the board of public works accompanied by several citizens, and this morning Jefferson street was gone over. The work was found to be satisfactory. It is said, and the board will doubtless accept the work at this afternoon's meeting. The board will also look after the filling in of Caldwell street where the new concrete culvert was built.

#### HEARST IS ILL.

Gubernatorial Candidate Is Suffering From a Cold.

New York, Oct. 10.—William R. Hearst, Democratic and Independence League candidate for governor, is ill at his home in this city with a severe cold. Mr. Hearst expects, however, to be able to address a meeting of the Independence League in Westchester county tomorrow evening.

## SULTAN SHOT

KURDISH FAVORITE GETS JEALOUS OF HER MASTER.

He Showed Too Much Attention to a Circassian Beauty in the Harem.

Paris, Oct. 10.—A dispatch to the Petit Parisien from Constantinople declares that the real secret of the recent illness of the sultan of Turkey was that he was shot in the abdomen by a Kurdish woman who was jealous of his latest favorite in the harem, a beautiful Circassian girl. According to the story, the bullet was extracted by a German physician, the sultan going under the operation without taking chloroform and displaying great nerve.

#### WOMAN DEAD; LAID TO WORRY.

Troubles Said to Have Caused Death of Rock Island Resident.

Rock Island, Oct. 10.—Worry is declared responsible for the death today of Mrs. Catherine McAdie. She had recently lost her property at Hershey, Neb., and was contesting the will of her brother, the late Dean Thomas Mackin, who left the bulk of his estate to distant relatives.

According to the story, the bullet was extracted by a German physician, the sultan going under the operation without taking chloroform and displaying great nerve.

WOMAN DEAD; LAD TO WORRY.

Trouble Said to Have Caused Demise of Rock Island Resident.

Rock Island, Oct. 10.—Worry is declared responsible for the death today of Mrs. Catherine McArdie. She had recently lost her property at Hershey, Neb., and was contesting the will of her brother, the late Don Thomas Macklin, who left the bulk of his estate to distant relatives.

## WILL NOT SPARE COST OF SUCCESS

Southwestern Kentucky Institute to  
Be Best Event in State  
This Fall.

### SOME OF TALENT SECURED

Preparations for the Southwestern Kentucky Farmers' Institute are progressing, and the railroads have offered one fare plus 25 cents for the round trip from any point in Kentucky. Hundreds of farmers are expected here October 18-20.

Hon. Hubert Vreeland, state commissioner of agriculture, labor and statistics, Frankfort, Ky., writes the McCracken County Farmers' Institute as follows, under date of October 6:

"I have been working hard to make your special institute meeting a great success, and the most important of any meeting ever held in Kentucky. This I mean to do, cost what it will in both money and hard work."

"I have received a favorable response from Prof. F. D. Coburn, secretary of the state board of agriculture, of the state of Kansas, who will be with us and address the farmers on several important subjects, including alfalfa. There is no better expert in the United States than Prof. Coburn. His experience, like every expert I will bring to Paducah, is practical experience, and not taken from books."

"We will have Prof. D. I. Christie, of Purdue University, a noted corn specialist, and we hope also to have Prof. P. H. Holden, vice dean of the Ames Experimental Station, Ames, Iowa, on corn and corn products; Prof. M. A. Sevon on feeding stock, beef cattle, dairy cattle, or some other important subject. I also expect to have some of the best men from the United States departments."

"You may be assured that neither time nor money will be spared to make the McCracken county special institute what it should be, one of vast interest to the farmers and free of cost."

"Yours very truly,

"HUBERT VREELAND, Commissioner."

### COLORADO HIT BY SNOWSTORM

First Fall of Season Preceded by Big Drop in Temperature.  
Colorado Springs, Colo., Oct. 6.—The first snowstorm of the season swept down upon Colorado Springs today. Reports from the mountains indicate a snowfall of several inches. A big drop in the temperature preceded the storm.

## MISHAPS ATTEND VANDERBILT CUP

Rash Man Killed and Others Hurt, Crowd Gets On Track and Bedlam Follows.

### FRENCHMAN WINS THE RACE

New York, Oct. 6.—One man was killed and many injured in an automobile accident early today. In the rush to reach the Vanderbilt cup course, Joseph Staher was run down and killed in Long Island City by a car driven by William Woods, of Boston. George Windsor was knocked down and probably fatally injured. William Horn, the driver, was arrested in this city. Mary Cogan was knocked down and fatally injured.

During the race Elliott Sheppard's automobile cut off the legs of a man in the sixth round. The accident was due to crowding on the track. Welschott, in his first machine, won over Carl Bruner, a boy, injuring him. His steering gear broke and the driver lost control of his machine.

Louis Wagner, representing France and driving a hundred horse power, four-cylinder machine, won the Vanderbilt cup automobile race today. It was in a heavy fog and the course was slippery, but the race was one of the most successful ever held here. Some laps were made in remarkably fast time. Wagner was in the lead all the time. He won by three minutes. Lancelotti, of Italy, was second in a Fiat.

Not Disarmed.  
Havana, Oct. 8.—The disbandment of rebels is nearly complete, but not so the disarmament. Reports from the interior indicate disarmed conditions at various points. Officially say the retention of arms by rebels is not important. The main object is to get them home to establish peace.

### SIX MONTHS IN JAIL.

Sentence of Money Order Cashier  
Who Was Found Short.

Cincinnati, Oct. 9.—R. W. Buchanan, formerly cashier of the money order department in the Cincinnati postoffice, whose accounts were found short some time ago, today was sentenced to six months in jail and to pay a fine of \$750. Buchanan made his shortage good as soon as it was discovered.

### TOADSTOOLS POISON A FAMILY

Little Girl Dead and Brother and Mother in Dying Condition.

Anderson, Ind., Oct. 8.—Myrtle Earle, seven years old, is dead and her 11-year-old brother and mother, Mrs. Robert Earle, are thought to be dying tonight as the result of eating toadstools that were mistaken for mushrooms.

## MATCH STRATEGY WITH STRATEGY

Old Senator Hustled Out of Hotel  
While Wife Threads Maze of  
Milk Trains.

### BOTH MAKE FORCED MARCHES

New York, Oct. 6.—Mrs. Thomas Collier Platt is somewhere in the midst of Manhattan moving so rapidly that her watchful foes, headed by Frank H. Platt, the son of her ancient husband, United States Senator Thomas C. Platt, have been pretty well circumvented.

"They hustled Senator Platt out of his hotel today at an hour that was unseasonably for a very elderly, weakly man, and bore him to his offices down town. But they were still in darkest doubt regarding the mode of attack that would be tried by the woman, whose wits are pitted against theirs in this game of matrimonial cross purposes. They did not know where she would strike first—at the Hotel Gotham or at the Platt offices—and their main concern was to keep Platt away from her at all hazards."

"I expect to see my husband today," Mrs. Platt was quoted as saying upon her arrival in the hostile territory. "My place is by his side."

Mrs. Platt arrived in New York at 10:30 a. m. an hour earlier than her usual hour for rising. She had left her country estate of Togo Lodge, in Highland Mills, at daylight, driven eight miles in the cold, gray chill of the dawn to the little railroad station of Turners, thus outwitting the reporters who waited for her in Highland Mills, and while the right of way was still cumbered with the tardiest of the milk trains she had started for New York over the Erie railroad.

### CHURCH JUBILEE DRAWS CROWD

Thousands at Celebration of Upper  
Iowa Methodist Event.

Maquoketa, Iowa, Oct. 8.—The golden jubilee of the Upper Iowa Methodist Episcopal conference was celebrated here today by the attendance of nearly 1,000 ministers, delegates and lay members. Fifty years ago today the conference was organized in this city. Of the hundred original members of this conference but three are living. Drs. Rankin, Fellows and Skinner. A reception at the armory given in their honor was attended by nearly 5,000 people.

### BAN ON SLATES AND SPONGES

Cleveland Health Officer Forbids  
Their Use in Public Schools.

Cleveland, Oct. 8.—The use of slates and sponges in the primary grades of the public schools has been forbidden by Health Officer Friedreich. "About two years ago I forbade the use of sponges," said he, "but I learn from the district physicians that they are again used. The slate, too, is a nuisance, and it is only because of the extreme conservatism of the school board that it has not been done away with long ago."

### PLUNDERER'S WEIGHT KILLS.

Sudden Death of Alton Negroess  
Frightens Other Blacks.

Alton, Ill., Oct. 9.—At the coroner's inquest today over the body of Mary E. Wells, a negro servant at the home of B. Young, upper Alton, it was developed that the woman was stricken with apoplexy, caused from exhaustion while carrying a lot of plunder stolen from the home of her employer. The circumstances of her death frightened the negroes in Alton, who consider it as being a case of swift punishment for wrongdoing.

## TO INCORPORATE FIFTH CLASS CITY

Progressive Suburb of Paducah Has  
the requisite Number of In-  
habitants.

### COMBINE SCHOOL DISTRICTS.

Tyler, Ky., probably will be incorporated as a city of the fifth class. Several aggressive citizens of that town are setting on foot a movement to have the town incorporated. It requires only a thousand persons to incorporate as a city of the fifth class, and Tyler and the district it is proposed to incorporate have 1,500 or 2,000.

Many distinct local advantages are expected to accrue from incorporating the town. It probably will be only a few years till Paducah will want to include Tyler in its city limits, but in the meantime, purely local needs could be greatly advanced through incorporation.

A city of the fifth class must have a mayor, a council of six members, a police judge, treasurer, city attorney, clerk, marshal, assessor and such other officers as the council may add. The mayor, council and police judge would be elected and the council would appoint all other officers.

As an incorporated city, railroads, street railways and all public utilities would have to secure franchises just as in Paducah they must secure them. The citizens of that town, noticing that the suburbs of a city always are least improved and necessarily get a small part of public improvements, believe that Tyler could do much more for itself as a separate city, than if it should wait until Paducah saw fit to take it in. They would get better police protection, could dictate to corporations seeking franchises, their own terms and not the terms which, as a part of this city, in order to equalize the benefits and burdens, might not give them all they desire.

The steps to be taken to do that are to present a petition with the signatures of two-thirds of the voters of the district which proposes to incorporate, to the circuit court. The circuit court will then fix the name of the city, define its boundaries and have the census taken. At the next session of the state legislature a charter can be secured.

This afternoon the trustees of school districts Nos. 1 and 27 which adjoin in the heart of Tyler, will meet with County Superintendent S. J. Billington. The object of the meeting is to consider the advisability of merging the two districts and organizing a graded school system. At present each school district has three trustees and if these two unite to form a graded school system, there will be five trustees. They will have the common grammar grades of the city public school system and whatever additional grades they desired to add. They could levy a tax to support the system.

In one of the districts mentioned, there are nearly 200 pupils. The county school year lasts for six months and the new graded school system could be made much better.

Tyler has been a separate post-office many years and the progressive spirit which always has distinguished the town, probably will go so far as to have it incorporated.

### CHABIVARI HAS FATAL ENDING

Doctor Who Seeks to Quiet Crowd  
Shot at Chibiz, Wis.

Marquette, Wis., 8.—Dr. Henry F. Conover, of Chibiz, was shot and killed last night while trying to quiet a chivalri at the home of Mr. and Mrs. Fred Bennett. The couple had just been married, and a crowd of men and boys gathered to celebrate the event in provincial style. Dr. Conover heard the noise and went over to try and suppress the crowd. As he entered the door a gun was discharged and he fell to the ground. The gun was held by Richard Hamilton, a saloon-keeper, who claimed it was discharged by accident. Conover died in his arms. Hamilton was arrested and will be held until after the inquest.

### GOES INSANE; ATTACKS FAMILY

Elgin Man Becomes Maniac as Re-  
sult of Overstudy.

Elgin, Ill., Oct. 9.—Becoming violently insane early today, Elmer E. Day, a well-known former Elgin druggist, demolished the furniture in his home and drove his wife and children into the street. He then barricaded the doors and with a butcherknife threatened the life of anyone who attempted to enter. After a desperate struggle three police officers subdued him and placed him in a cell in the city jail. Day's mind first became affected about five years ago, due to overstudy.

### CZAR'S BROTHER

Grand Duke Michael Will Wed Prin-  
cess Patricia.

St. Petersburg, Oct. 8.—A marriage has been arranged between the Grand Duke Michael, only brother of Emperor Nicholas, and Princess Patricia, of Connaught, niece of King Edward. The betrothal occurred during the grand duke's recent trip to Copenhagen and Scotland, from which he has just returned.

### 500 POLICY-HOLDERS WILL SUE

General Movement on North German  
Insurance Company at Frisco.

San Francisco, Oct. 9.—Five hundred suits will be filed in the next few weeks in the federal and state courts here against the North German Fire Insurance company of Hamburg, Germany. This is announced by W. J. Herrin, president of the policy-holders' committee.

## SENATOR M'CREARY SPEAKS NEXT WEEK

McCracken County Is Organized  
Against Him and Beckham  
Will Carry It.

### OPINION OF THE MAJORITY

The other side of the factional wrangle in the Democratic camp is to be heard in Paducah October 16, when Senator James H. McCreary will speak here. Word has been received by Chairman W. A. Berry, of the Democratic committee, and in the letter Senator McCreary stated that he will write to ex-Mayor James Lang.

Mr. Lang has heard nothing as yet. Senator McCreary will speak here at night at the Kentucky theater, probably. The selection of a man to introduce him and other arrangements will be made later by his friends here.

Senator McCreary's announced dates are as follows:

Carrollton, Monday, October 8; Williamstown, Wednesday, October 10; Hopkinsville, Friday, October 12; Shelbyville, Saturday, October 13; Mayfield, Monday, October 15; Benton, Tuesday, October 16; Paducah, Tuesday, October 16, at night; Murray, Wednesday, October 17; Russellville, Friday, October 19; Bowling Green, Saturday, October 20.

The indications are that this county is organized against Senator McCreary and the administration Democrats, in spite of the fight the party organ has been waging against Governor Beckham, are confident that the governor and Hager will carry McCracken county at the state primary next month.

### JIMINEZ ATTACKS MONTE CRIST

Rebels Raid Haytien Consulate and  
Take Valuable Papers.

Cape Haytien, Oct. 8.—General Jean Jimenez, a nephew of ex-President Jimenez, last night attacked Monte Cristi. He took advantage of the panic that resulted to enter the Haytien consulate and secured important archives and documents, but was forced to fly before superior government forces. During the skirmishes the insurgent general, Rodriguez, was captured by the government troops and imprisoned. The rebels are furious at the authorization accorded the dominican government by Hayti to debark troops on Haytien territory and in retaliation have killed many Haytiens on the frontier. Haytien cruiser Nord Alexis has arrived here to take the governor of the city on a tour of investigation. The situation is serious.

### TROUBLE WITH LAUNCH.

Governor Beckham Nearly Missed  
Smithland Date.

Governor Beckham came near making the address he was to deliver at Smithland, Thursday afternoon, to the words and birds. With several gentlemen he left Thursday morning in a gasoline launch for Smithland, and the engine broke down near Ledbetter. After an hour the break was repaired and the party reached Smithland just in time to start the speaking.

### ACTING CORONER.

Fred Roth Assigned to Duty by Cor-  
oner Baker.

Mr. Fred Roth, of the undertaking firm of Mattil, Eluger & company, is coroner now and will be until the return of Coroner Frank Baker from St. Louis. Coroner Frank Baker will leave this afternoon for St. Louis on a several days' trip on business, and this morning deputized Mr. Roth to act in his place.

## ENROLLMENT OF SCHOOL GROWING

Cadet Class Will Be Organized and  
Faculty Selected—Choral  
Club Plans.

### FOOTBALL TEAM PLAYS TODAY

The first week of October, the second school month of the fall term closed yesterday with the most satisfactory results. It showed a general increase in enrollment over the past months and decided improvement in attendance.

In the high school yesterday the enrollment closed with 150, the largest high school since the establishment of the schools. The high school is larger now than it was when the grammar school graduates came in to the class last year at the beginning of the second term and swelled the enrollment nearly a half hundred. When the 60 pupils come in at the beginning of the second term this year, the high school will number 230.

The Cadet Class.  
While Supt. C. M. Lob will not have much time to devote to instructing the "Cadet Class," a successful feature in the schools last year, it is possible that the class will be organized again and made a permanent feature of the work. Already several seniors are taking special work. Prof. Loh will be asked to teach pedagogy again. Other teachers will be assigned work in the class, relieving the superintendent. Tuesday the class members will meet with Superintendent Loh and members of the faculty to discuss the matter.

Football Team Leaves.  
At 11 o'clock this morning the high school football team left for Metropolis in a gasoline launch to play the Metropolis high school this afternoon. The team will return tonight.

Next Week's Features.  
The features for next week will be an address on Tuesday morning by the Rev. T. J. Newell. The high school orchestra will play and there will be several class choruses, these coming probably Wednesday.

The Choral and Debating Clubs.  
A choral club will be organized next week and also a debating club. Last year the debating club met on Friday evening but the time will be changed to Friday afternoon. The choral club was also an interesting feature of each enrollment given by the high school. The choral club will be under the direction of Miss Carolina Ham, music teacher, and Miss Ada Brazleton, one of the faculty of the high school and an excellent musician.

## VIGILANTES TO TAKE UP SEARCH

Left Dying on Deserted Island in  
Fox River by Two Men—  
Police Fail.

### KIDNAPED BOY IS RESTORED

Aurora, Ill., Oct. 9.—A vigilance committee was formed today to inflict vengeance upon the assaults of Josephine Frank, aged sixteen years, the girl kidnaped by two men and held prisoner on a deserted island in Fox river for hours, then brutally attacked and released when dying. The police kept the crime a secret some time, while they searched for her assailants without avail.

### Kidnaped Boy Found.

New York, Oct. 9.—William Labarbara, the four year old boy, for whom the entire police force has been searching since his kidnaping was found today, and restored to his parents. That the child was kidnaped, neither the police or his parents doubt. The boy was discovered at the Brooklyn end of the Brooklyn bridge Sunday by Ernest O'Connor, and taken to the children's home in Brooklyn. The boy is unable to tell anything intelligently about his experience.

### ENGINE FAILS

And Morning Train Is Delayed Sev-  
eral Hours.

While pulling out of Central City this morning the engine pulling train No. 103, the fast Illinois Central Louisville-Memphis passenger train, failed and caused a delay of three hours and fifteen minutes. Another engine was not available at that time and a "dead one" was steamed and prepared to haul the last train through to Paducah. It arrived at 7:30 o'clock.

When you start a fire in the  
**WILSON WOOD HEATER**  
there is no occasion to remove a quantity of heavy ashes. The Hot Blast Down-Draft consumes every particle of burnable material in the wood so that when the fire has burned out only a very small quantity of fine particles remains in the stove to represent the impurities in the fuel which would not ignite. A piece of paper—a few chips and a stick of wood will enable you to have a roaring fire in ten minutes, which fire may be maintained for 24 hours. Owing to the scientific construction, the Down-Draft burns all the fuel, the Wilson saves one-half your fuel bill.

## TO OUR FRIENDS

We are in the shoe business and want to call your attention to a few facts you should know:

Leather is higher now than it has been since the civil war, and we are compelled to pay more money to get the same shoe we have been selling and, of course, will have to charge you a little more. However, you can rest assured we will not misrepresent a shoe to you and will not tell you it is just as good as you have always gotten for the same money, if it is not. We can give you shoes at any price and we guarantee all of our shoes, and our guarantee means something.

Call around and see us and we will give you the best proposition you can get anywhere consistent with honorable straightforward dealing. Respectfully,

## BAREFOOTED AND HUNGRY ARE BOYS

Found Wandering The Streets of Louisville.

Said Their Mother Lives in Paducah and They Seek Fortune at Race Track.

ARE NOT KNOWN BY POLICE.

A Louisville dispatch received this morning advises that Edward and Clovis Holland, 13 and 12 years old, respectively, were taken in custody at that city yesterday and will be sent back home to Paducah. They were barefooted and had no money. They stated they wanted to follow the races and earn a livelihood. The boys claimed their father was dead and that their mother lives in Paducah. Following is the dispatch:

Edward Holland, ten years old, and his brother, Clovis Holland, twelve years old, were taken into custody today at the city hall and will be sent to their home in Paducah, which they left several days ago with a view to earning a living by following the races. They were ragged and barefooted when taken in charge. They came to Louisville last night in a freight car, and said they almost froze to death in the car. They said their father was dead, but their mother is living in Paducah. They left home to earn their own living.

The two boys are brothers of Edgar Holland, charged with beating George Marshall with a stick, following at the Colonnade Mills Monday evening.

### PENNSY CUTS RATES.

Announces Two Cent Fare for Mileage Hooks.

Chicago, Oct. 10.—The Pennsylvania railroad announces that on November 1 it will place on sale in its western division, without limit as to time or user, a 1,000-mile hook for \$20, or at the rate of two cents a mile. This step is a measure of retaliation against the Erie railroad for its decision to reduce passenger rates to 2 1/2 cents a mile.

In the opinion of railroad authorities, the course of the Pennsylvania amounts to a virtual reduction of the passenger rate to two cents a mile in the entire territory of the Central Passenger Association.

### Defendant Sentenced.

Allan Parker, defaulting cashier of a national bank at Tallahassee, Fla., was sentenced to five years in prison in the federal court at Nashville yesterday.

### CURE YOUR KIDNEYS.

Do Not Endanger Life When a Paducah Citizen Shows You the Cure.

Why will people continue to suffer the agonies of kidney complaint, backache, urinary disorders, impotence, headaches, languor, why allow themselves to become chronic invalids, when a certain cure is offered them?

Doan's Kidney Pills is the remedy to use, because it gives to the kidneys the help they need to perform their work.

If you have any, even one, of the symptoms of kidney diseases, cure yourself now, before diabetes, drousy or bright's disease sets in. Read this Paducah testimony:

Mrs. Charles Williams, of 700 Terrell street, Paducah, says: "Despite the use of plaster and home remedies my back ached almost continually, and as my husband who is employed by the Singer Sewing Machine Co., on Third street, continually complained of his, we were both constantly on the lookout for some means to check or eradicate the cause. Reading one night about Doan's Kidney Pills induced me to get that remedy at Alvey & List's drug store. Two boxes thoroughly proved that the preparation acts up to the representations made for it."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

## CASE FOR STATE AGAINST STANDARD

Is Explained By Prosecuting Attorney in Ohio.

Charles Rockefeller Corporation Maintains Monopoly on the Oil Business.

HISTORY OF PROCEEDINGS.

Findlay, O., Oct. 10.—The Standard Oil company of Ohio was put on trial here yesterday, charged with conspiracy against trade in violation of the state anti-trust laws. The penalty prescribed is a fine of from \$50 to \$2,000, or from six to twelve months' imprisonment. John D. Rockefeller was granted a separate trial.

What the state expects to prove against the Standard Oil company of Ohio was made the subject of a lengthy address to the jury by County Prosecutor David.

The object of the "trust" was to control the oil business, and 99 per cent. of the capital, skill and property engaged in the oil business in the United States was gathered into the "trust," which was controlled by nine trustees. This arrangement continued for ten years, during which time 19 companies subsidiary to the trust, but controlled by it, were organized.

The supreme court of the state found the Standard Oil trust to be monopolistic and against public policy and ordered the trust dissolved.

Mr. David asserted that it is expected in this trial to prove that the board of trustees of the local companies he had named never did and never intended to comply with that order of the court, although technically they may have observed the same in the letter.

Back to the Old.

In 1899, he said John D. Rockefeller and the same trustees were still controlling the policies and business of the Standard Oil trust. The Standard Oil company of New Jersey was organized as a "holding company," with capital stock of \$110,000,000 and increased corporate power, which included the right to buy, hold and vote the stock of the other corporations. John D. Rockefeller, he said, was the largest stockholder and was president of the corporation.

Between the years 1899 and 1901, Mr. David said, the New Jersey organization issued \$98,000,000 of capital stock, and purchased nearly all of the stock of the subsidiary companies in the trust.

Mr. David then stated that F. Q. Harston, a director in the New Jersey company, is president of the Standard Oil company of Ohio; that H. H. Rogers, a director in the New Jersey corporation, is president of the Buckeye Pipe Line company; that John Archbold, a director in the New Jersey corporation, is president of the Ohio Oil company and the Solar Refining company.

As to the business methods of the local companies, he said the Standard Oil company of Ohio and Solar Refining company refined oil, the Ohio Oil company was a producer of crude petroleum and is also at this time engaged in building a pipe line from the Illinois oil fields to connect with the Indiana Pipe company; that the Buckeye Pipe Line company is a gathering and transportation company.

Mr. David said the state would show that while all of these refineries needed crude oil to refine, they never compete in its purchase, and while they had to sell they never compete in its sale in Hancock county.

### PURE OLIVE OIL

Says Government Report, Is Nothing But Cotton Seed Oil.

Washington, D. C., Oct. 10.—"Undoubtedly a large proportion of the olive oil imported into the United States," says an official publication of the bureau of manufacturers today, "is composed of that cotton seed oil which the American people refuse to consume in its honest form, but consume when imported under the several well-known brands of the old world's famous olive oils." The bureau takes the position in favor of an official analysis of cotton oil and a government assurance of its purity and wholesomeness before it is put on the market.

### Heavy Registration.

New York, Oct. 10.—Local registration in this city yesterday was 221,287, against 201,612 the first day of last year. The interesting gubernatorial contest in New York state is responsible for the big registration. There was no trouble during the day. Early indications were that the registration would be light, but the voters came out in great numbers during the evening.

## MAKES NEW SHOES FIT LIKE OLD.

Johnston Stretching Machine Now in Operation at This Store---What It Will Do and How It Does It---Free to the Public.

We have secured the use of the Johnston Stretching Machine and it is now in operation in our store. This machine stretches the particular spot in your shoe which hurts your foot and does it **without injuring the looks of the shoe.**

By the use of this machine it is no longer necessary to cut your shoe to relieve pain.

You no longer have to buy an unsightly shoe in order to be comfortable. Come in and select the style that suits your head and we will guarantee to fit your foot.

If your shoe fits everywhere but rubs the heel, in two minutes we'll remove the cause of the pain. If your shoe fits perfectly except for a corn or bunion, this machine will stretch the shoe in such a way that the pressure on the sore part will be relieved.

This machine, by a harmless and unnoticeable stretching of the shoe, relieves pain from a bunion on the inside of the foot; a corn on the little toe; callous or corns in center of foot; relieves tight instep; relieves and cures ingrowing toe nail or corn on top of big toe; relieves soft corn between the toes so that in standing or walking there will be no friction, causing the parts to heal and the corn to pass off; relieves curl or bridge toes; rectifies running over of the heel on the outside.

These are strong assertions, but we can back them up. The patentees of this machine do not sell them, but rent them to the best shoe stores in the different cities in the United States. You can now buy a shoe the size of your foot and the painful places will be relieved.

There will be no charge to anybody at any time for the use of this machine. We have secured it for the convenience of the public and whether you are a regular customer or not, you will be more than welcome for the relief it affords.

We are showing our fall and winter stock now and the range of choice takes in the finest shoes made in the world, in the more reasonable priced ones.

### COCK FIGHT

WILL BE PULLED OFF ACROSS THE OHIO RIVER.

Paducah and Craneyville Sports Are to Match Chickens in the Pit October 12.

Paducah against Craneyville, with more than a dozen purses of from \$10 to \$25, is the program for October 12 in what promises to be the biggest cock fight pulled off in this section in years. Because of the laws governing cock fighting the plans have been kept quiet, and only leaked out recently.

For years Craneyville has beaten Paducah in this sport, but local sportsmen are as game as their chickens and will go on again. There are twelve chickens to go in the first fight. They are owned by five Paducahans and some of them are imported for the purpose.

The Craneyville chickens are the same strain that has taken first money for several seasons. The fights are to be pulled off in Illinois, the location to be selected later. It will be the first cock fight in this section since February.

### Republican Convention.

## You May Use This Buck's Sanitary Fuel-Saving Range for 30 Days Without Charge

It is built on the "Buck's System," which means that it will produce the greatest amount of heat at the least cost and will direct the heat where it is most needed. This is done by means of a hot blast fire-box and a scientific flue construction. Let us put one of these splendid Ranges into your kitchen on thirty days trial. Come to the store, see the stove and get particulars regarding this offer.

Daily Thought.

"History makes its records in  
straight lines, which are drawn ruth-  
lessly across human plans and fol-  
dies."

KEEP 'EM THE WORK.

Not for a day, not just to bring in  
a few hundred families of immigrants  
to western Kentucky was the immigra-  
tion association organized, but to  
guide the stream of immigration into  
this section year after year until all  
our waste lands are under cultivation  
and the country is settled with  
hardy farmers. And, it is not alone  
the man who has land to sell, that  
must take active interest in the move-  
ment. He is benefited to be sure,  
but not more so than the tradesman,  
the artisan, the professional man, the  
common carrier and every other in-  
dividual and concern contributing to  
and living off the wealth of the com-  
munity. The immigration movement  
has for its excuse a two-fold  
purpose: to bring immigrants here  
and to supervise immigration, so that  
no drones may be let into this indus-  
trial community. The presence of  
an additional wealth producer adds  
to the potential wealth of every other  
man in the community, and Paducah  
especially must benefit by the  
growth of western Kentucky. She is  
the natural metropolis of the region  
occupying an industrial and commer-  
cial position unassailable as long as  
her inhabitants keep pace with the  
times. At present much of our money  
goes out of the city and out of the  
section to buy food stuffs. The  
country is not self-supporting. In  
that it does not raise all the products  
to be made into food. Paducah has  
no flour mill and must purchase  
flour away from home. The advent  
of the small foreign farmer with his  
ability to raise diversified crops will  
go far toward changing conditions,  
and certainly will more than double  
the wealth producing capacity of the  
land. With a prosperous surround-  
ing country paying annual tribute to  
Paducah, the city must grow as it  
never grew before, and the extension  
of traction lines that necessarily  
must follow an increase in popula-  
tion will draw outlying communities  
nearer to Paducah, widening her  
sphere of influence and making her  
more than ever the pride of the whole  
Purchase. The good of the immigra-  
tion convention will not be meas-  
ured by the results of one year, but  
of ten years, and some means should  
be taken to insure the perpetuity of  
the association. Incorporation was  
the means adopted in Charleston, S.  
C., and it may be the officers of this  
association will see fit to follow that  
example. Whatever is done for the  
best the people must contribute to its  
support.

The Republican convention will  
meet at the city hall tomorrow  
afternoon at 2 o'clock. Re-nominations  
will be offered all members of the  
general council and school board, but

the choice of a candidate for city  
judge to head the ticket must be left  
to the judgment of the delegates.  
There is a chance to win. The action  
of the delegates will strengthen or  
weaken the whole ticket. The man  
should be chosen who can carry the  
largest element of the opposition to  
the Democratic candidate and at the  
same time command his own party  
strength. It is not enough to nomi-  
nate a good man. He must be the  
strongest man in addition to his hon-  
esty. The delegates have a great re-  
sponsibility on them and they should  
exercise unhampered discretion in  
making the selection.

Paducah does not want a mayor  
for whom office hours have to be pro-  
scribed, and the general council does  
well to withdraw the school boy rule  
that confines the executive to his of-  
fice chair. We believe in proper re-  
strictions on the conduct of every  
public office but not on the personal  
liberties of the incumbent. The  
mayor is directly responsible to the  
people for the execution of his trust  
and fixing his working hours will not  
improve his administration. We favor  
giving the executive the fullest mea-  
sure of discretion and then pinning the  
responsibility to him, and we know  
that is exactly what our Democratic  
"Uncle David" Velsor would like.

The Independence League of New  
York, which delivered the Hearst  
globe brick to the Democratic party,  
appeals for funds on the ground that  
it is "making a fight for the people."  
The announcement of its fusion with  
Tammany in New York county sug-  
gests that the sentence is incomplete  
—it is "making a fight for the peo-  
ple's votes."

John J. Delaney, corporation coun-  
sel of New York City, resigned his  
\$15,000 position yesterday in a note,  
containing 18 words. That was one  
of the most costly messages ever dis-  
tributed. It cost Mr. Delaney \$833.  
33 1/3 a word.

While Brynn was in Europe he  
complained that President Roosevelt  
had stolen his anti-trust clothes. He  
should be happy now, for no one  
seems to covet his new government  
ownership breeches.

The passionate red of that Ohio  
tomato that eloped with a pumpkin  
and climbed a telephone pole where  
they were united with electricity,  
must make its author's ears burn.

Two killed and several wounded in  
Catcher Cline of the Chicago Na-  
tional League team gave another il-  
lustration of the old saw: "There's  
nothing in a name."

West Kentucky Republicans should  
make their voices heard in advocacy  
of the candidacy of Judge James  
Breathitt, of Hopkinsville, for gov-  
ernor.

The young man of Loveland, O.,  
who committed suicide in his wedding  
clothes, just didn't want to leave  
Loveland.

Unquestionably, in deciding the  
expected Platt divorce suit, the court  
will award Mrs. Platt custody of the  
poodle dog, Nan Nan.

CORN-FED FISH FOR CHICAGO

German Carp Basis for New Industry  
of Wisconsin Village.

Kenosha, Wis., Oct. 10.—Inhab-  
itants of Wilmet village have opened  
up a new industry in fattening fish  
for the Chicago market. German  
carp, which are plentiful in Fox river,  
are scooped up in nets and placed  
in a big pen fenced off in a small  
stream. They are fed on corn and  
grain the same as hogs. It is claimed  
the fish take on flesh rapidly, and  
it is not uncommon to take carp  
from the pen weighing from thirty  
to fifty pounds. Last year the ingenu-  
ous workers in the new industry  
sold over two tons of fish fattened in  
this way. This season they will dis-  
pose of twenty tons, as there is a  
good demand. The fish are ready for  
the market about the middle of Janu-  
ary.

PUBLICATION PROVOKES KAISER

Anger over the "Recollections" of  
Chancellor Von Hohenlohe.

Berlin, Oct. 10.—According to the  
Hohenzollern, a newspaper of Prague,  
Emperor William has telegraphed to  
Prince Alexander von Hohenlohe in-  
forming him his majesty regarded as  
"gross carelessness" the action of the  
press in causing the publication of the  
"Recollections" of his father, the  
late Chancellor von Hohenlohe,  
including extracts from the chan-  
cellor's diary referring to the difference  
between Prince Bismarck and the  
emperor which led to the former's re-  
tirement.

Misses Birdie and Myrtle Hawkins  
went to Danville, Ill., last night to  
visit their father.

## AMENDED ARTICLES

DEMOCRAT PUBLISHING COM-  
PANY REORGANIZES.

Capital Stock Reduced From \$55,000  
to \$15,000 and J. J. Berry Is  
President.

Amended articles of incorporation  
of the Democrat Publishing company  
were filed this morning in county  
court. The capital stock is fixed at  
\$15,000, a reduction from \$55,000,  
and J. J. Berry is made president of  
the company. The stock is divided  
into 300 shares of \$50 each. The  
stockholders are J. J. Berry, 188; J.  
C. Pitterbeck, 29; J. L. Friedman,  
22; S. B. Hughes, 24; W. A. Berry,  
5; D. M. Flournoy, 11; D. M. Flour-  
noy trustee, 11 shares.

SHOOT BIG GUNS.

Hearst Will Be Target for Speeches  
in New York.

Washington, D. C., Oct. 10.—The  
ablest political speakers of the ad-  
ministration will be sent to New  
York state during the campaign to  
aid in the fight against Hearst. Secre-  
taries Root and Shaw have already  
announced that they are to take part  
in the Hughes fight. Speaker Can-  
non, at the solicitation of Chairman  
Sherman of the congressional com-  
mittee, will fill various dates, and  
when Secretary Taft gets back about  
a week from this time he will be  
asked to take the stump for the Re-  
publican ticket, both state and con-  
gressional.

NEW HEARST ORGAN IN DENVER

E. J. Livermore to Be Managing Ed-  
itor of the News and Times.

Denver, Oct. 10.—Hearst will  
control the editorial policy of the  
News and Times. Senator Patter-  
son's dailies, after tomorrow, when  
Edward J. Livermore, former editor  
of the San Francisco Examiner, be-  
comes managing editor. Although no  
stock was sold to Hearst, it is gen-  
erally known that in return for leas-  
ed wire service and other considera-  
tions the papers will support Hearst.  
The Denver Post, owned by E. G.  
Boadle, has long been a Hearst ad-  
vocate.

WASHINGTON HAS NEW PAPER.

Herald, Edited by Former Manager  
of Post, Appears.

Washington, Oct. 10.—The Wash-  
ington Herald, a new morning daily  
newspaper, made its first appearance  
here today and creates a favorable  
impression. It is edited by Scott C.  
Bowen, for many years managing ed-  
itor of the Washington Post, and so  
closely resembles the Post typog-  
raphically that except for the title  
line it might easily be mistaken for  
that paper. Editorially the paper  
simply announces its arrival and  
promises a clean, honest and in-  
dependent policy.

ALMOST CATHARTIC.

Inventor of Barbed Wire Fencing  
Dies in Illinois.

Chicago, Oct. 10.—Joseph H. Gild-  
den, the inventor of the barbed wire  
fence, is dead at his home in De  
Kalb, Ill., at the age of 33. Mr.  
Gildeden obtained the idea of making  
barbed wire fencing from an exhibit  
made at a county fair in the early  
'60s by a man named Itoss, who had  
driven some brads through a wire,  
which he then stapled to a wire. Gild-  
den improved upon this idea, and the  
barbed wire of today was the ulti-  
mate outcome.

days, and beginning Friday there will  
be speaking in every section of the  
county by fourteen prominent men,  
including Dr. Dunn, of Robertson  
county, Tenn., and John Allen, of  
Montgomery county, Tenn. They  
are speaking in Calloway county  
this week, and Ballard and Carlisle  
counties will be visited on the trip.

The dates assigned are: Woodville,  
Friday, October 12, at 2 p. m.; Rag-  
land, Saturday, October 13, at 2 p.

PROBATION

PLAN IS ADOPTED BY COUNTY  
JUDGE LIGHTFOOT.

Boys Presented for Cutting Off Tail  
of Mule Agrees to the Good  
in the Future.

The county of McCracken has no  
juvenile jail or place especially pre-  
pared to work and confine juveniles  
guilty of violations of the law; but  
County Judge R. T. Lightfoot, who  
by virtue of his office is made judge  
of the juvenile court, has a way to  
punish the boys.

This morning Edward Walden  
was presented for cutting off a mule's  
tail. He did not deny it.

"I promptly sentenced the boy to  
three years in the reform school,"  
Judge Lightfoot stated. "He cried.  
After I had lectured the youth and  
made him believe he surely was go-  
ing up for three years, I talked to  
him in a more friendly manner. I  
made him see that he was doing  
wrong, and he promised to do bet-  
ter. Then I suspended sentence and  
gave him one more trial."

RUSHED WITH ORDERS.

Coal Dealers Are Busy Today in  
Paducah.

Those coal dealers who get their  
coal by railroads are facing a possi-  
ble shortage. The railroads are work-  
ing overtime and the car situation  
before the cold weather has set in,  
bids fair to exercise all the ingenu-  
ity of the railroads to supply the de-  
mand this winter. The mines are  
working with full forces and still are  
not able to meet the demand which  
the first cold weather has stimu-  
lated. In the city the demand is large  
and all the coal dealers are rushed  
with orders.

BOXERS DRILLING.

Preparing to Attack Foreign Devils  
in China.

Victoria, B. C., Oct. 10.—Another  
serious outbreak of boxers is threat-  
ened in China according to advices  
received here. In industrial West  
Pekin an outrage already has been  
committed by organized bands of  
boxers. The movement is spreading,  
and serious trouble is feared unless  
agitators are suppressed immedi-  
ately. Boxers are drilling in the hills  
in preparation for an attack on the  
foreigners.

To Develop Waterways.

Chicago, Oct. 10.—The develop-  
ment of the waterways of the United  
States will be the chief topic for dis-  
cussion at the meeting of the West-  
ern Society of Civil Engineers Fri-  
day evening, when Hon. Joseph S.  
Ransdell, member of the rivers and  
harbors committee and chairman of  
the national rivers and harbors con-  
gress, will be the guest of honor and  
will deliver an address upon that  
subject.

Notice to Leather Workers.

Leather Workers' union No. 2  
meets in regular session tonight, all  
members are urged to be present as  
there will be business of great im-  
portance to come before the body.

## FROM BUGGY

MRS. MRS. T. HILL WAS THROWN  
IN ARKANSAS.

Wife of Well Known Dentist Is in a  
Serious Condition at Datto—No  
Particulars.

Thrown from a buggy, in a run-  
away, while riding with her husband  
at Datto, Ark., Mrs. McK. T. Hill,  
wife of the well known dentist,  
of the Hill Dental company, sustained  
injuries which may prove fatal.

Dr. and Mrs. Hill have had their  
headquarters at Cornburg, Ark., for  
several weeks, and were riding to  
Datto. A message received this  
morning from Dr. Hill reported the  
accident, and Mrs. Hill's mother, of  
Paris, Ky., is hastening to her side.  
A later message received by Dr. Hill's  
family states that her condition is  
unchanged and she is in a semi-con-  
scious condition.  
Particulars of the accident have  
not been received.

Designs \$15,000 Place.

New York, Oct. 10.—Corporation  
Counsel John A. Delany sent his re-  
signation to Mayor McClellan today.  
His letter of resignation contained  
18 words, and gave no reason what-  
ever for the step. The mayor ac-  
cepted the resignation in a polite  
note to Mr. Delany. William B. Mil-  
lison was appointed to succeed Mr. De-  
lany. He was sworn in this after-  
noon. Mr. Millison has been the com-  
missioner of water supply, gas and  
electricity. The salary of the office  
is \$15,000 a year.

Bold Robbery.

Moberly, Mo., Oct. 10.—The bold-  
est robbery in Randolph county for a  
great many years occurred at Hanta-  
ville this morning, when two masked  
men entered the station, and after  
locking the agent, an operator and  
the negro track driver in a box car,  
blew the safe open and secured \$200  
in money, and made their escape.

Mr. J. E. Harth returned this  
morning from Philadelphia, Pa.

How the Blood Flow Affects Health.

Few people appreciate the neces-  
sity of keeping the blood in every way  
in good condition if they would have  
good health.

There are two factors in disease,  
which, by an endless variety of chan-  
ges and combinations define every  
departure from normal conditions.

These are the BLOOD and the  
NERVES. They sustain life, and  
END IT.

The blood must maintain a steady,  
swift and equal flow or bad conse-  
quences follow. Every organ and tis-  
sue must get its right share of blood,  
no more, no less. Stop it and the sys-  
tem is soon poisoned with accumu-  
lated body sewage, and lack of prop-  
er nourishment sets up, headaches,  
tired, worn out sensations, no life,  
no energy at other kindred ail-  
ments follow.

Right the blood flow, and they all  
leave.

This is the Osteopathic theory. It  
merely goes back to the beginning  
of disease. It finds most disease is  
associated with an abnormal blood  
flow.

Especially during the fall and win-  
ter months it is necessary to keep the  
blood flow right. Exercise of the  
right sort is a good stimulant for  
circulation, but the dry hot air treat-  
ment, followed by the Osteopathic  
treatments, which I am giving with  
such marked good results, is the best  
treatment yet discovered.

Why? Simply because they go to  
the lungs.

Come to see me at any time and I  
can easily satisfy you that I can soon  
build up the run-down system, while  
you are attending to your usual du-  
ties. I shall, too, be pleased to refer  
you to people you know well who are  
enthusiastic in their praises of the  
treatments.

My office hours are from 8 to 12  
a. m. and 2 to 4 p. m.

## W.L. DOUGLAS

UNION \$3.50  
MADE  
SHOES  
FOR MEN.

The guiding motive in  
W. L. Douglas shoemaking  
is to produce the best  
possible shoe at the price—  
a shoe that has never been  
equaled. Every move he  
makes is toward that end.

While his unrivaled facilities  
as the world's largest shoe-  
maker splendidly second the  
endeavor, yet it would be im-  
possible to produce the \$3.50  
shoes which rival much higher  
priced footwear, in attractive-  
ness, in comfort and in ser-  
vice, were it not for the high  
standard he has set.

People sometimes get the im-  
pression that all \$3.50 shoes  
are of equal value, but if  
you could see the difference between the  
shoes made in the W. L. Douglas factory  
and those of other makes, you would quickly  
understand why they hold their shape better,  
fit better and are of greater intrinsic value  
than any other shoe on the market today.  
W. L. Douglas guarantees their value  
by stamping his name and price on the bottom.  
Even though the price of leather has ad-  
vanced very materially of late, you will find  
the same superior quality in W. L. Douglas  
\$3.50 shoes that have made them the most  
popular footwear in the world.

MILK KEPT SWEET FOR WEEKS

Agricultural Department Emphasizes  
Results of Chicago Show.

Washington, Oct. 10.—In a bulle-  
tin just issued on the milk and cream  
exhibit at the National Dairy Show  
held in Chicago last February, the  
agricultural department directs atten-  
tion particularly to the coming of  
certified milk. Milk and cream pro-  
duced under sanitary conditions, it  
says, remains perfectly sweet after  
being shipped 1,000 miles across the  
country, put in storage at a tempera-  
ture of about 32 degrees Fahrenheit  
for two weeks and then reshipped 900

miles to Washington, where they were  
stored in an ordinary ice box for sev-  
eral weeks longer. Cream placed in  
cold storage in Chicago at a tempera-  
ture of 32 degrees remains sweet and  
palatable for seven weeks, while sam-  
ples of market milk remained sweet  
for a week in the exhibit case at a  
temperature of about 50 degrees.

Adopt New Spelling.

Columbus, O., Oct. 10.—The Co-  
lumbus board of education last night,  
upon the recommendation of the at-  
tending superintendent of schools, decided to  
adopt the simplified spelling so far  
as it is practicable in the schools of  
the city.

**Miss Haid in Oklahoma.**  
Miss Anne Sherrill Haid, who makes her home in this city with her sister, Mrs. Luke Russell, on West Jefferson street, and is a newspaper woman of brilliancy and ability, connected with both the Nashville Banner and the official organ of the Hoo-Hoo, has been "seeing" Oklahoma. She gives her impressions of the "new star" state in a breezy letter to the Banner with the following lead:

"It is my fate to always see the afterglow. I am never on hand when things are really doing. When the shouting and tumult dies, then I slide in at the back gate as it were, and view what's left. Last year I toured up and down the Pacific coast, I saw the mission of San Gabriel, and discovered that the door was fastened with a Yale lock and that the building was lighted with electricity—dinky little bulbs that hang from the century-old beams. I do not in the least doubt that when I go to Venice the gondoliers will all be rigged out in hand-me-down suits and derby hats. Never do I come face to face with romance. Always has the picturesque vanished down the road before I turn the corner. In Oklahoma the phases of life that are typically western are fast passing away. The roar of commerce has scared the coyotes to death. The wild and woolly west has grown respectable if not prosaic, and the romance and glamour of pioneer times no longer glid the days. I rode around over the prairie—in an automobile. Doesn't that sound silly? It does not improve matters to call the thing a 'motor car' or a 'machine.' The fact remains that I always land too late."

**Delightful Dance Last Evening.**  
Miss Marjorie Scott's dance in honor of her guest, Miss Bruen, of Missouri, last evening at the Craig House was a pretty event. About thirty-five couples were present and the cotillion was led by Mr. John Brooks. The reception hall and double parlors were thrown together and elaborately decorated with plants and flowers for the occasion. Light refreshments were served.

**Marriage This Afternoon.**  
Miss Tina Starks, a popular young lady of South Eighth street, and Mr. D. D. Johnston, of Fulton, were married this afternoon at 2 o'clock. It was a quiet home wedding witnessed by the immediate friends and relatives. Rev. T. J. Newell of the Broadway Methodist church, was the officiating minister. They will make their home in Fulton.

**Magazine Club.**  
The first regular meeting of the Magazine club will be tomorrow afternoon with Mrs. Bertie P. Campbell, on Broadway. The magazines for discussion are: Harper's, North American Review, Atlantic Monthly, Outlook, Hubbard's Journeys, McClure's and Literary Digest. Instead of quotations at roll-call "Current Events" will be the feature for this year.

**Madame Musical Club.**  
The active members of the Matinee Musical club met this afternoon at 3 o'clock with the president, Mrs. H. S. Wells, at the Empire Plats. Arrangements for the regular open meetings of the club during the winter, with the program, are being perfected.

**Magnolia Grove Entertained.**  
The members of Magnolia Grove, Woodmen circle, were delightfully entertained last night by Mr. and Mrs. Ed DeLoach, of Jackson street. A Dutch lunch was served and an enjoyable evening spent.

**Birthday Party.**  
Miss Julia Dabney entertained a number of her girl friends yesterday afternoon at her home on North Fifth street in honor of her birthday. It was a pleasant occasion.

**Dr. F. O. LaRue, of Smithland, was in the city today.**

### WHAT MORAN THINKS OF BRYAN

**Will Not Run on Platform That Endorses Him.**

Boston, Oct. 10.—John Moran, nominee for governor on three tickets, Democratic, Prohibition and Independent, may decline to run on any. He announced he would decline the Democratic nomination because contrary to his expressed wishes, the platform endorsed the presidential candidacy of Bryan.

### Court Is Powerless.

Madison, Wis., Oct. 10.—The Wisconsin supreme court today rendered a decision that the gas case must go to the legislature to get a remedy against high prices for gas. The city of Madison sued for inspection of some local company's books.

### Marriage License.

### Theatrical Notes

**KENTUCKY THIS WEEK.**  
Wednesday .... "House of Mystery"  
Friday .... Father Nigel lectures

A representative melodramatic production will be the attraction at The Kentucky tonight, and is called

## THE HOUSE OF MYSTERY

Scene from the "House of Mystery" at The Kentucky tonight. "House of Mystery."

"The House of Mystery," a play in four acts, written by Langdon McCarrick. Each and every act abounds in wholesome comedy, sentiment, pathos and original effects, unfolded in a plot, new in theme, sensational, realistic portrayed by an exceptionally clever company of players, while as a scenic production it far exceeds anything of its kind heretofore presented. The electrical effects, illusions, etc., as introduced in the third act of the play is a work of stage mechanism once seen always remembered.

### Lecture on Columbus.

The sale of seats for the entertainment to be given at The Kentucky Friday night has been very good and indications are for a good house. The Rev. Father Nagle, who was here at the Chautauqua and delivered one of his famous lectures, will lecture on Columbus.

### Car and Milk Wagon Collide.

Car No. 191, of the Third street line, collided with the milk wagon of W. H. Graves at Third and Tennessee streets this morning, knocking the tongue out of the wagon and spilling two cans of milk. One of the horses was hurt in the accident. The car came up behind the milk wagon, hitting the hub of the front wheel.

## NEW LEGISLATION ABOUT INSURANCE

Suggested By Commissioner  
Prewitt of Kentucky.

Will Recommend Changes in State  
Law to Legislators—Talks of  
Meeting.

### MURRAY'S COMMERCIAL CLUB.

Frankfort, Ky., Oct. 10.—State insurance commissioner Henry H. Prewitt returned to his office today after attending the annual conference of insurance commissioners of the several states, held at Washington.

The measures proposed are as follows: A bill to require an annual apportionment and accounting of surplus of life insurance companies; and act regulating life insurance companies and prohibiting the diversion of funds for political purposes; an act to regulate the investment of the funds of life insurance companies; an act relating to the provisions of life insurance policies; an act defining the status of persons soliciting life insurance, making the solicitor the agent of the company and not of the assured; an act to prohibit misrepresentations by life insurance companies; an act to prohibit discrimination by life insurance companies; an act providing for the regulating the election of directors of mutual life insurance companies; an act to prohibit the issuance of non-participating policies by certain life insurance companies; a bill relating to the salaries of officers and agents of life insurance companies; an act regulating disbursements by life insurance companies; and a bill regulating the retirement of capital stock in certain cases.

### News From Murray.

Murray, Ky., Oct. 10.—The city council has passed an ordinance calling for a vote on the question of issuing bonds to establish a water works and electric light plant. The cry here for years has been for water and better lights.

Several citizens met in Senator Conn Linn's office Monday afternoon and organized a commercial club. An election of officers resulted as follows:

Judge A. J. G. Wells, president; E. A. Hughes, secretary; J. A. Edwards, treasurer.

Board of directors: E. H. Haley, J. L. D. Woodruff, F. P. Stum, Conn Linn, C. L. Morris, Dr. Wiley Graves, J. B. Hay.

R. T. Wells, S. Higgins and Conn Linn were appointed a committee to draw up by-laws.

L. W. Holland general booster.

### Sucked Under Moving Train.

Louisville Ky., while walking along the Louisville & Nashville track this morning, it is believed was seized with vertigo, and fell just as the south-bound fast train flashed by. The suction drew Buckner onto the track, and held him close to the rail, as if in a vise. The entire train of seven coaches passed over the prostrate man, who he was picked up it was found that the flanges had ground the side of his coat and trousers into shreds, but that, save for a few scratches on the body, he was unharmed. Buckner who is 60 years old, says he recovered consciousness while the train was passing over him, and expected every moment to be ground to pieces.

### Horse Committed Suicide.

Munfordville, Ky., Oct. 10.—A horse belonging to J. M. Craddock, of this place, was found dead yesterday morning under circumstances that strongly indicate suicide. The stable door stood near an ice-house. It appears that the horse deliberately turned himself out of his stall, a thing that never happened before, and jumped into the icehouse, which was of the old-fashioned cellar variety.

### Brother Against Brother.

Sergeant, Ky., Oct. 10.—As the result of an old family grudge, on Potter's fork of Boone creek, above here John Wright, Jr., aged thirty-nine years, struck Sol Wright, aged forty-two years, his brother across the forehead with an old-fashioned shotgun, inflicting perhaps fatal wounds. There is little hope of his recovery.

### OHIO TURNS OUT NEW PRODIGY

Farmer Says He Grows Pumpkins That Taste Like a Tomato.

Gallipolis, O., Oct. 10.—The pumpkin, or the tomato, whichever it may be called, is the latest addition to the flora of Ohio. It is the invention of Edward Womeldorf, a young farmer, late in the season he set out some climbing tomato plants close to a telephone pole. Near by were pumpkin vines. One of the tomato plants and one of the pumpkin vines amalgamated and the product of the confluence climbed the telephone pole. The joint vine prolonged itself over the wires and the current of electricity pervaded it. Vegetables developed in the course of time, but while each retained its outward form, each borrowed the characteristics of the other. The tomato tasted exactly like pumpkin and the pumpkin had the tomato flavor. The introduction of the electric current from the telephone wires produced a curious result. At night the pumpkins glow with a yellow incandescence, while the tomatoes are of a passionate red shade. The illumination is soft, but penetrating. Womeldorf says this is a good feature, because the vine has plenty of light to work all night, and so grows twice as fast.

### LOST HIS ROLL.

Graves County Man Is Shy Seventy-Five Dollars.

W. F. Bennett, of Graves county, reported to the police this morning that he had lost \$75 and did not know whether he had been "touched" or had dropped the money accidentally. Bennett was at the union depot last night when he missed the money. He looked all over the station for it without success. He retraced his steps to the depot and failed to uncover anything.

### Is the Moon Inhabited.

## FROST WAS HEAVY WHERE SHELTERED

Strong Wind Protected Vegetation During Night.

Overcoats and Heavy Garments Were in Use This Morning by Every-body.

### PADUCAH'S FIRST OF WINTER.

Frost nipped vegetation this morning on the lee of buildings. The strong wind last night protected vegetation in the open, but when the wind was cut off the white frost was plainly visible.

Few plants suffered, however, because housewives took the precaution to follow the warning in The Sun last evening.

The first touch of real cold weather arrived this morning and overcoats were conspicuous on the streets. Everyone owning an overcoat had it on except those few who were unfortunate enough to have left theirs at home, and this class is confined entirely to drummers. Drummers who came south shivered in the cold this morning in cab, car and every place they went.

The temperature sunk to 38 this morning and unless the elements intervene a killing frost is predicted for tonight.

Cleveland, O., Oct. 10.—Snow to the depth of two inches has fallen here since last night. It is still snowing.

### Snow at Maysville.

Maysville, Ky., Oct. 10.—Snow fell for three hours this morning but melted practically as fast as it fell. This is the earliest snow here in years.

### LEST WE

Forget—Baby is restless, can't sleep at night, won't eat, cries spasmodically. A bottle of White's Cream Vermifuge never fails to cure. Every mother should give her baby White's Cream Vermifuge. So many times when the baby is pale and fretful the mother does not know what to do. A bottle of this medicine would bring color to his cheeks and laughter to his eyes. Write a trial, sold by all druggists.

### Human Blood Marks.

A tale of horror was told by marks of human blood in the home of J. W. Williams, a well-known merchant of Mac, Ky. He writes: "Twenty years ago I had severe hemorrhages of the lungs, and was near death when I began taking Dr. King's New Discovery. It completely cured me and I have remained well ever since." It cures Hemorrhages, Chronic Coughs, Settled Colds and Bronchitis and is the only known cure for Weak Lungs. Every bottle guaranteed by all druggists. 50c and \$1.00. Trial bottle free.

### JULIUS CAESAR

Was a man of nerve, but sickness left its mark and he began to feel before his time. Sickness is often caused by a torpid liver. Herbine will regulate your liver and give you health. Mrs. Carrie Austin, Bolton, Kan., writes: "I consider Herbine the best medicine I ever heard of. I can never without it."

Sold by all druggists.

### Devil's Island Torture.

Is no worse than the terrible case of Piles that afflicted me ten years. Then I was advised to apply Buckle's Arnica Salve, and less than a box permanently cured me, writes L. S. Napier, of Rugles, Ky. Heals all wounds, Burns and Sores like magic. 25c at all druggists.

## MIDDLE LIFE

A Time When Women Are Susceptible to Many  
Dread Diseases—Intelligent Women Prepare  
for it. Two Relate their Experiences.

The "change of life" is the most critical period of a woman's existence, and the anxiety felt by women as it draws near is not without reason. Every woman who neglects the care of her health at this time invites disease and pain.

When her system is in a deranged condition, or she is predisposed to apoplexy, or congestion of any organ, the tendency is at this period likely to become active—and with a host of nervous irritations make life a burden. At this time, also, cancers and tumors are more liable to form and begin their destructive work.

Such warning symptoms as sense of suffocation, hot flashes, headache, backaches, dread of impending evil, dizziness, sounds in the ears, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness, inquietude, and dizziness, are promptly headed by intelligent women who are approaching the period in life when woman's great change may be expected.

Lydia E. Pinkham's Vegetable Compound was prepared to meet the needs of woman's system at this trying period of her life. It invigorates and strengthens the female organism and builds up the weakened nervous system.

For special advice regarding this important period women are invited to write to Mrs. Pinkham at Lynn, Mass., and it will be furnished absolutely free of charge. The present Mrs. Pinkham is the daughter-in-law of Lydia E. Pinkham, her assistant before her decease, and for twenty-five years since her advice has been freely given to sick women.

Read what Lydia E. Pinkham's Compound did for Mrs. Hyland and Mrs. Hinkle:

Dear Mrs. Pinkham:—  
"I had been suffering with displacement of the organs for years and was passing through the change of life. My abdomen was badly swollen; my stomach was sore; I had dizzy spells, sick headaches, and was very nervous."

Lydia E. Pinkham's Vegetable Compound Succeeds Where Others Fail.

Mrs. A. E. G. Myland

"I wrote you for advice and commenced treatment with Lydia E. Pinkham's Vegetable Compound as you directed, and I am happy to say that all those distressing symptoms left me and I have passed safely through the change of life, a well woman. I am recommending your medicine to all my friends."—Mrs. Annie E. G. Myland, Chester-town, Md.

### Another Woman's Case

"During change of life words cannot express what I suffered. My physician said I had a cancerous condition of the female organs. One day I read some of the testimonials of women who had been cured by Lydia E. Pinkham's Vegetable Compound, and I decided to try it and to write you for advice. Your medicine made me a well woman, and all my bad symptoms soon disappeared."

"I advise every woman at this period of life to take your medicine and write you for advice."—Mrs. Lizzie Hinkle, Salem, Ind.

What Lydia E. Pinkham's Vegetable Compound did for Mrs. Hyland and Mrs. Hinkle it will do for other women at this time of life.

It has conquered pain, restored health, and prolonged life in cases that utterly baffled physicians.

## FOR CHAMPIONSHIP LEAGUES IN BATTLE

Betting Favors Nationals Three to One but All Hets Are Covered Quickly.

### BATTING ORDER OF TEAMS

Chicago, Oct. 9.—Identical baseball weather is obtaining today when at 3 o'clock the Chicago Nationals and Chicago Americans meet in the first game of a series of seven for the world's championship.

Both teams are in excellent condition for the struggle and both are confident of victory. The pitchers are in grand form and both Manager Clinch and Jones declared that the losing team would have no excuses to offer for defeat except that the best ball players had won.

The game will be played on the grounds of the National league, President Murphy having won the toss, giving him the first game. Wednesday's game will be decided at President C. A. Coniskey's park, and the next four games, if that many are played, will be alternated between the Southside and Westside parks. Should it be necessary to play the seventh game, the National baseball commission will decide where it shall be played.

The players representing the National League are the favorites at all the way from 5 to 3 to 1.

Following is the batting order for the Americans: Hahn, right field; Jones, center field; Isbell, second base; Davis, shortstop; Dougherty, first base; Dougherty, left field; Sullivan, center field; McFarland, catcher; Tannehill, third base.

Nationals—Hoffman, center field; Sheppard, left field; Schulte, right field; Chance, first base; Steinfield, third base; Tinker, shortstop; Evers, second base; Kling, catcher.

Umpires—Mr. Johnstone, National League; Mr. O'Loughlin, American League.

### OVER WOUNDED MAN.

**Surgeons From River Hospitals Engage in Struggle.**

New York, Oct. 9.—While a man lay dying in an ambulance in Pell street in the Chinese quarter today with three bullet wounds in his back, surgeons from two hospitals struggled to secure possession of the wounded man. Several of the dying man's friends took a hand in the affair when the argument was at its height, and when the ambulance started to drive away someone seized the wounded man and dragged him nearly out of the ambulance.

### NO IMMUNITY.

### 57-CLUB.

**Capt. James M. Lang Talks of Organization.**

Capt. James M. Lang and a number of other gentlemen are discussing the organization of a 57 club. It is proposed to form a club of the residents of the city or county who were born in the year 1857. This club would be similar in its purpose to the '49 club, only to belong to it. It is requisite to have been born in this city or the county. They would have an annual outing with their families and around the picnic spread at camp fire, grow reminiscent of the good old days—their youth. Capt. Lang has counted twenty-five who would be eligible to membership in the '57 club.

**Charge That Cleveland Mayor Is Financially Interested.**

Cleveland, O., Oct. 9.—Charging that Mayor Johnson is financially interested in the success of the Forest City Railway company, otherwise known as the 3-cent-fare street railway line and that he procured the organization of the company, obtained franchises for it, and has assumed a financial responsibility in behalf of the Forest City Railway company—all of which is said to be in violation of the law—the Cleveland Electric railway filed today in common pleas court a petition asking that all work on the Forest City Railway company's lines be enjoined.

### BOARD OF HEALTH.

**Adopt Some Stringent Regulations at Meeting.**

All slaughterhouses must be moved outside the city limits in a year. This is the edict of the board of health pronounced at the regular meeting last night. The board also considered the matter of fixing the responsibility for tearing down warning cards posted on houses in which there is a contagious disease. The general council was requested to enact an ordinance fixing the responsibility on the head of the house and making it an offense punishable by a fine to permit the card to be torn down.

### OLD-TIME OPERATORS TO MEET.

**Association of Telegraphers of Early Days Gather at Washington.**

Washington, Oct. 9.—The Old-Time Telegraphers' and Historical society and the Society of the Military Telegraph corps will meet here tomorrow in their twenty-sixth annual session. The program includes a reception at the White House by President Roosevelt. Both organizations number among their membership many men prominently before the public, who, in their earlier years, were telegraphers. Andrew Carnegie, Thomas A. Edison, General Thomas E. Eckert, Clarence H. Muckey and George J. Gould are among the members.

A few days ago young Sprowl went to Tiffin and was quietly married by Rev. Mr. Kersey. Today he surprised his relatives by appearing with his bride. Mr. and Mrs. Sprowl had never met until the day before the wedding. The groom is a writer and says his fondness for poetry is on the increase.

## PRACTICAL TURN TO IMMIGRATION

**Louisville Times Thinks Southwest Kentucky Is Settling Good Example.**

### STATE WILL PROFIT BY IT

Speaking editorially of the recent immigration convention, the Louisville Times says:

The Paducah convention on immigration has given a practical turn to the heretofore theoretical discussion of immigration for Kentucky. In perfecting an organization in each of the counties of southwestern Kentucky and southern Illinois, in providing for an annual convention in Paducah and in determining on definite measures to secure immediate Austrian immigration, the convention has taken the first actual step in an experiment from which Kentucky owing to the comparatively small number of its negro population is more likely to profit than any southern state.

In so doing, however, Kentucky has not led the way. The ultra southern and conservative city of Charleston has already closed a court for the importation of a ship load of Russian immigrants, and a land company of North Carolina has for some months, had as its direct representative in Austria, Germany, Roumania and Hungary, a former commissioner of immigration, who is entrusted with the responsibility of selecting the best classes of those who are appealed to by his representation of the advantages awaiting them in North Carolina.

If Kentucky is to get a desirable class of immigrants the plan of the Paducah convention and of the North Carolina land company must be, in the main, followed. Dependence on the chances of securing desirable immigrants through the persuasive eloquence and safe judgment of agents stationed at Ellis Island to unhook sections from the horde of immigrants who land there is a risky way of doing things. As long as Kentucky is going in for foreign immigration, the plan which offers the largest promise of benefits is that of having a safe representative in the country or countries from which the desired class of immigrants are to come.

### DOWIE HAS A VISION.

**In Obedience to It He Gives Up His Mexican Colony.**

Chicago, Oct. 9.—John Alexander Dowie's plan for a Mexican colony was abandoned in obedience to a command received by Dowie in a vision that came to him last Friday in a vision vision came to him last Friday night and lasted five hours, according to an announcement made today by Deacon Arrington, one of Dowie's followers, who has remained loyal to the deposed prophet. The scheme, Deacon Arrington said, was relinquished in favor of another that contemplates the raising of \$1,000,000 in Chicago for the purpose of restoring Dowie's power and prestige. The announcement was made in a small church in Chicago.

### MEN ARE SICK.

**And Every Extra Conductor Is Working on Street Cars.**

Today the Paducah Traction company is experiencing a condition that has never before existed since the Stou & Webster company took charge of the property. Nine men are ill and every extra conductor is being used. They have to work extra because of the horse show and the week will be a hard one on street car employees. Little inconvenience is caused the public by the conditions.

## PADUCAH IS FIRST TO PRACTICE PLAN

**Louisville Looks to West Kentucky to Accomplish Something for State.**

### VIEWS OF COURIER-JOURNAL.

The Courier-Journal of Sunday has been following to say about the immigration convention.

The people of western Kentucky are inaugurating a movement leading to the promotion of immigration which in its practical features, commands itself to other parts of the state and is worthy of the attention of the state development convention, which will meet in Winchester on the 10th inst. In conjunction with the citizens of southern Illinois they had during the past week an immigration convention at Paducah and organized the Western Kentucky and Southern Illinois Association with a view to taking practical steps for the promotion of immigration. It was stated that a representative of local interests was now in Austria endeavoring to secure 200 families for Mcracken county, and that he would take up the work for the new association. There were representatives from all the counties of the First district in each of which will be a local organization to collect data as to the number and kind of immigrants needed and report to the executive officers of the association at Paducah, as a guide to their agents exposed to be sent abroad. Farmers and those of other callings from the northwest will also be invited to settle in the district.

This is a step in the right direction. Our people may meet in conventions, pass resolutions and listen to dissertations or eloquent speeches on the general subject without realizing any practical results. What is needed is action based on practical business premises. If immigrants are needed, ascertain who needs them, and for what purposes. If they are to come a colony the land they are to occupy must be designated, the terms of occupancy specifically arranged, and the means provided for bringing them or aiding them in coming. And as to individual immigrants there must be a definite demand for them with the certainty that when they come they will find occupation and properly provided for.

This was the means by which four colonies were settled in Laurel county Ky., about thirty years ago through the efforts of the immigration branch of the geological bureau by Prof. Procter, its director, in co-operation with the Swiss consul at Louisville. It was a successful undertaking as were several other similar efforts, but the most successful, as also the most practical, immigration movement, was that to which Louisville is indebted for the acquisition of the German element of its population. Prior to 1846 there were very few of that nationality here. Among them was one who afterward became a well known citizen and acquired a handsome fortune. His name was Frederick Wedgenkemper. Mrs. Wm. Preston, the mother of Gen. William Preston, congressman and Confederate general owned a large tract of and comprising a large part of the eastern portion of the city, and extending beyond its limits. In order to procure occupants for it, she sent Wedgenkemper as her agent to Germany with offers to sell lots or lease them cheaply for long terms to those who wished to live in town or in the country. The result was that he procured an eligible class of immigrants who bought or leased, with privilege of buying, what is now valuable property at nominal prices. Many of those coming leased ground for market gardening and afterward buying it and some becoming quite wealthy. It was this step which led to the fact that Louisville is second to no other city in respect to the excellence of its markets for fruit and vegetables. Once started the stream of immigrants continued until in every department of business the German element of the city occupies a deservedly prominent place.

As yet, in all that has been written or spoken upon the subject of immigration, in late years, the Paducah convention is the first which has put the matter in a practical way. It is needless to waste time in treating it in the abstract. What is needed is that it be dealt with in the concrete. If immigration is needed let those who need it speak out and specifically formulate their needs as to the character of the immigrants, and then let the practical steps be taken for supplying the demand. And as to this, the Paducah meeting seems to have made an intelligent beginning well worth imitation.

St. Petersburg, Oct. 6.—Revolutionary agitators are to be shot on sight in the future. Secret orders to this effect were issued by the ministers of war and marine.

### NO MAN IS STRONGER THAN HIS STOMACH.

Let the greatest athlete have dyspepsia and his muscles would soon fall. Physical strength is derived from food. If a man has insufficient food he loses strength. If he has no food he dies. Food is converted into nutrition through the stomach and bowels. It depends on the strength of the stomach to what extent food eaten is digested and assimilated. People can die of starvation who have abundant food to eat, when the stomach and its associate organs of digestion and nutrition do not perform their duty. Thus the stomach is really the vital organ of the body. If the stomach is weak the body will be weak also, because it is upon the stomach the body relies for its strength. And as the body, considered as a whole, is made up of its several members and organs, so the weakness of the body as a consequence of "weak" stomach will be distributed among the organs which compose the body. If the body is weak because it is ill-nourished that physical weakness will be found in all the organs—heart, liver, kidneys, etc. The liver will be torpid and inactive, giving rise to biliousness, loss of appetite, weak nerves, feeble or irregular action of the circulation, dizziness, headache, backache and kindred disturbances and weaknesses.

Mr. Louis Pare, of Quebec, writes: "For years my health began to fail, my head grew dizzy, eyes pained me, and my stomach was sore all the time, while everything I would eat would seem to lie heavy like lead on my stomach. The doctors claimed that it was sympathetic trouble due to dyspepsia. I was treated by a number of doctors, but my powers regularly fell. I felt no better. My wife advised me to try Dr. Pierce's Golden Medical Discovery and also taking the doctor's medicine. She bought me a bottle and we soon found that I began to improve, so I kept up the treatment. I took on food, my stomach became normal, the digestive organs worked perfectly and I soon began to look like a different person. I can now take food as eagerly for what your medicine has done for me and I certainly give it highest praise. I don't believe in a penny-grabbing dealer in taking inferior substitutes for Dr. Pierce's medicines, recommended to 'first as good'."

To gain knowledge of your own body—in sickness and health—send for the People's Common Sense Medical Adviser. A book of 1008 pages. Send 21 one-cent stamps for paper-covered, or 31 stamps for cloth-bound copy. Address Dr. B. V. Pierce, 603 Main Street, Buffalo, N. Y.

**A Thoughtful Wife.**

Denver, Col., Oct. 9.—With death near at hand, Mrs. Edward J. Munger, the wife of a wealthy oil operator of Postville, O., talks daily into a phonograph, so that when she shall have passed away her voice may cheer her sorrowing husband. Together the Munger have made a tour of the world, and in each place of interest they visited Mrs. Munger has recorded upon the cylinder her impressions of the sights. Also much of her conversation with her husband is repeated into the phonograph.

### CAN'T STAND FOR HEARST.

New York, Sept. 29.—Mayor McClellan, in an authorized interview today, said he would support the Democratic state ticket with the exception of Hearst. "I will continue to oppose Hearst and Charles Murphy with all my strength," he said. The mayor's statement, which was given to all the city hall reporters, is as follows:

"As I said yesterday, I am a Democrat, and accept the action of the Democratic convention. I will be a Democrat when my party has a name but as a Democrat and as mayor of this town, I am unalterably opposed to Charles W. Murphy and to everything that he stands for."

## PADUCAH VENEER COMPANY'S LOSS

By Fire and Water Will Be  
About \$5,000.

Spark From Coopersage Plant Sup-  
posed to Have Ignited Ware-  
house Full of Lumber.

### FIREMEN DO HEROIC WORK

Hardly having returned from the steamer John S. Hopkins fire and another at Thirteenth and Burnett streets, No. 2 company was called at 10 o'clock to the Paducah Veneer & Lumber company's mill at the intersection of Mill and Myers streets. Fire was discovered in the warehouse on Myers street.

Four car loads of veneering were burned and ruined by water, the loss being between \$3,000 and \$5,000. Most of the damage was done by water, the thin strips of poplar and gum, curling up and spitting when wet. The insurance will cover the loss.

In the burning warehouse there was approximately \$20,000 worth of lumber ready for shipment. It contained nearly a million feet. The only explanation of the source of the fire, is that a spark from the smoke stack of the Paducah Coopersage company entered the end of the warehouse, setting it on fire. The Paducah Coopersage company adjoins the Paducah Veneer and Lumber company.

When company No. 2 arrived, the employees already and the private fire fighting apparatus in operation, but the two-inch hose would not have been sufficient to put out the blaze. No. 4 company arrived soon afterward. The engine from No. 2 station was used effectively.

Few of the firemen have had breakfast today and they will combine dinner and breakfast. At 6:15 o'clock they were called to the John Hopkins fire. At 9 o'clock to a small fire at Thirteenth and Burnett streets and at 10 o'clock to the Paducah Veneer and Lumber company. Acting Chief Jake Elliott was in charge at all the fires and great satisfaction is expressed both by the owners of the boat and the Veneer company at the promptness and ability with which the firemen responded.

## BIDS FOR CANAL WORK ARE INVITED

Will Be Opened By Govern-  
ment December 12.

Contract for Entire Work to Be Un-  
dertaken by the Successful  
Bidder.

### TERMS ARE GIVEN TO PUBLIC

Washington, Oct. 10.—Invitations for proposals to complete the Panama canal were issued today by the canal commission, and the form of contract under which the work is to be done was made public by Chairman Shoats, who also gave out a letter written to the secretary of war, giving the commission's reasons for contracting the work.

The contract provides that each bidder must undertake the entire work of construction. Bidders will not be considered who do not have available capital of \$5,000,000. A certified check for \$200,000 is required with each proposal and a bond of \$3,000,000 will be required from the successful bidder. All proposals are to be in before noon of December 12.

Proposals are to be expressed in terms of percentage upon the estimate cost of construction, which is to be fixed by a board of five engineers.

The contract specifies that the commission is to retain control of all engineering work in connection with the construction of the canal, also municipal engineering, the police, sanitary, hospital and commissary departments, mess house and quarters construction, and maintenance of buildings, as well as operation of the Panama railway.

Sixty days after signing the contract actual work is to begin on the isthmus. No employee is to work more than eight hours.

Morgan Will Separate C. H. & D.  
and Pere Marquette.

Cincinnati, O., Oct. 10.—The termination of J. Pierpont Morgan to operate the Cincinnati, Hamilton and Dayton railroad independent of the Pere Marquette and the Cincinnati, Chicago and Louisville was shown at the annual meeting of the stockholders of the Cincinnati, Hamilton and Dayton, which was held in the Cincinnati offices of that corporation today. Lawrence Maxwell, Jr., counsel for Mr. Morgan, explained to the stockholders the steps which are about to set aside the lease of the Pere Marquette.

### ISLE OF PINES.

May Be Annexed by the United  
States Government.

Havana, Oct. 10.—As the result of Cuban combinations, the American flag may float over the Isle of Pines. Practically the entire island is owned by Americans. The Root treaty to restore it to Cuba was held up in congress over three years. A few days ago Taft notified the committee of the Isle of Pines residents to indicate a form of government satisfactory to them. The result probably will be the elevation of the stars and stripes.

### CHILD BITTEN.

Snapped by Vicious Dog on Jackson  
Street.

Arlie Egan, 9 years old, of 222 Jackson street, was attacked by a dog this morning at 6:30 o'clock and bitten on the left arm. The dog snapped the child at the elbow inflicting an ugly wound. The dog was supposed to have been mad, but this is denied by those who witnessed the accident.

### NOT ENTITLED TO BAIL.

Court of Appeals Denies the Hum-  
mel Application.

Albany, N. Y., Oct. 10.—The court of appeals, in a decision handed down today, decided that Attorney Abraham E. Hummel, under conviction for conspiracy in the Morse-Lodge case, was not entitled to be out on bail pending the determination by the courts of an application for a certificate of reasonable doubt.

## THE PUTTY QUESTION

Up the Chimney is Where Half Your Fuel  
Money Goes When the Ordinary Stove is Used

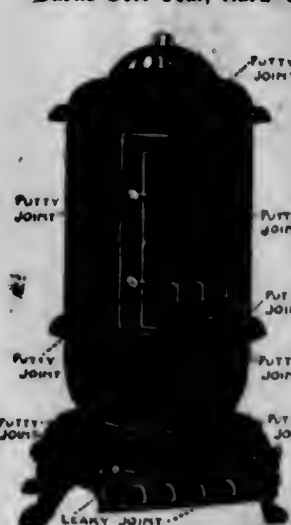

Stove putty is universally used by stove manufacturers for making tight joints in heating stoves. While the stove is brand new the putty does the work asked of it. A hot fire for a few months cracks the putty, it drops out of place, leaving the stove full of air leaking cracks, allowing the gases and the fuel and a big part of the heat generated to be sucked up the chimney and thus wasted.

More than one-half of all the fuel you put into the putty jointed stove is lost in this way. If your old stove eats up more fuel and does not keep fire as well as it did at first, the reason is the stove putty has dropped out of the joints.

## Cole's Original Hot Blast

Stove Saves all Fuel and Heat Wasted by  
Other Heating Stoves

Burns Soft Coal, Hard Coal, Crushed Coke, Lignite, Slack or Wood.

CUT No. 2. Shows air-leaking putty joint construction of other stoves.

No stove putty is used in the construction of this economical stove; it is not necessary, owing to the patented construction which makes the stove practically jointless. Cole's Hot Blast is the only heating stove in the world which is guaranteed to remain always air-tight. On account of the absolutely air-tight construction of Cole's Original Hot Blast Stoves, gases and the fuel are held back until they are consumed by the patented top Hot Blast draft, and both gases and heat which escape up the chimney with other stoves are thus saved to your profit and comfort—soft coal is half gas. As a result of this saving the fire is never out and the rooms are heated for two or three hours in the morning with the coal put in the Cole's Hot Blast Stove the night before.

### Scientific Construction

Note the straight steel jacket enclosing the heavy cast iron fire box inside, and the guaranteed smoke-proof feed door placed at the front of the top in Cole's Hot Blast Stove, shown by cut No. 1, doing away with air-leaking putty joints at top and bottom of fire pot and around the door frame on other stoves as shown by cut No. 2.

The water-tight steel bottom and patented compound hinge for ash door, also the patented steel collar for joining the ash door frame to the heavy steel body so that it cannot be loosened by action of the fiercest heat, while of only technical interest, are special features in the Original Hot Blast Stove which combine to make it the most economical heating stove in the world. We are Exclusive Agents—avoid imitations.

**Save \$50.00 to \$200.00** You cannot afford to say to yourself, "My old stove or an imitation stove at a little less price will have to do this winter." Other style stoves and all imitations of this Original Hot Blast are made with stove putty joints, and when you stop to think that \$1.00 saved on the first cost of the stove means the loss of \$50 to \$200 in fuel during the life of the stove, you will readily see the advantage of buying Cole's Original Hot Blast, which holds fire just as well and is just as economical in fuel after years of use as the first day it was put up. **REMEMBER** that the words "Cole's Original Hot Blast from Chicago" appear on the feed door of the Original Patented Hot Blast stove. None genuine without this.
